OFFICIAL GAZETTE

GOVERNMENT OF GOA, DAMAN AND DIU

EXTRAORDINARY

GOVERNMENT OF GOA, DAMAN AND DIU

Industries and Labour Department

Notification

2-194-78-ILD

In exercise of the powers conferred by section 23, read with section 51-A of the Indian Electricity Act, 1910 (Central Act 9 of 1910) and in supersession of all the existing Notifications, the Lieutenant Governor of Goa, Daman and Diu hereby frames the following Electricity Supply Tariffs for the Goa district of the Union territory of Goa, Daman and Diu as specified in the schedule appended to this notification:

SCHEDULE

I. GENERAL CONDITIONS

1. These tariffs shall be subject to revision by the Government from time to time.
2. These tariffs shall be subject to the terms and conditions for power supply approved from time to time by the Government.
3. Supply of power in all cases shall be subject to the execution of agreements by consumers.
4. As a general rule, no low voltage service will be given where the connected load is over 100 KVA. Exceptions may be made in special cases at the discretion of the Chief Electrical Engineer.
5. Supply to consumers having a connected load between 100 KVA to 1000 KVA will be generally at 11 KV, and for more than 1000 KVA at 33 KV. Exceptions may be made in special cases at the discretion of the Chief Electrical Engineer. A rebate of 1% of the monthly bill corresponding to demand charge and energy charge only shall be given to H. T. consumers availing power supply at a voltage of 110 KV and above. However, the voltage of supply shall be at the discretion of the Chief Electrical Engineer.
6. If energy supplied for a specific purpose under a particular Tariff is used for a different purpose

not contemplated in the contract for supply and/or for which higher tariff is applicable, it will be deemed as misuse and stealing of energy within the meaning of the Indian Electricity Act, 1910. In such a case, the energy consumption bills already rendered for the service shall be revised by applying the appropriate higher tariff from the date of connection unless convincing reasons are adduced thereof for adopting a different period. The imposition of this higher tariff shall not relieve the consumer from any penalties as per the Law.

7. Surcharge of one percent compound per month or part thereof shall be levied on all delayed payment of bills. Such surcharges shall be rounded off to the nearest multiple of 5 paise. Amount less than 3 paise will be neglected and amount of 3 paise or more shall be rounded off to next multiple of 5 paise.

8. If the consumers fail to pay the energy bill presented to them within the stipulated period, the Electricity Department shall have the right to disconnect the supply after serving a seven days clear notice on such consumers.

9. Consumers requiring supply for loads not covered by these tariffs and also electro-chemical and electro-metallurgical industries, may negotiate for special tariff with the Electricity Department.

10. In case of doubts or anomalies in respect of categorisation of any consumer or in any other respect, the decision of the Chief Electrical Engineer shall be final.

II. DEFINITIONS

1. Connected load means the sum of rated capacities of all the energy consuming devices which can be operated simultaneously. This will be expressed in KW/KVA. One H. P. will be considered equivalent to one KVA for equipment rated in H. P.
2. Seasonal consumers mean all consumers who work only during a part of the year upto a maximum of nine months, such as cotton, corn, and pressing factories. It shall also include ice factories, oil mills, which may work throughout the year but intermittently, and any other consumers which may be approved by the Electricity Department from time to time as seasonal consumers.

3. Maximum Demand means the average KVA supplied during the 30 minutes period (or any other shorter period as may be prescribed by the Electricity Department) of maximum use in a month.

4. Contract Demand means the maximum KVA for which the Electricity Department has undertaken to provide facilities from time to time.

5. Billing Demand means either: —

- i) The actual maximum demand during the month; or
- ii) 75% of the contract demand; or
- iii) actual maximum demand during the previous 11 (Eleven) months or
- iv) 50 KVA whichever is higher, however, if the actual maximum demand is found to be exceeding the contracted demand, the increase in the billing demand beyond the contracted demand shall be charged at double the normal rate.

6. Billing Demand for Agricultural consumers, Lift Irrigation Schemes, agricultural farms and seasonal consumers, etc., availing H. T. supply shall be the actual Maximum demand during the month.

A. Low Tension Supply.

1.a) Tariff-LTD/Domestic and Non-Commercial:

	Tariff KWH/Month	Ps/Unit (KWH)
Applicable to private houses, bungalows, clubs, hostels and hospitals run on non-commercial lines charitable, educational and religious institutions, etc. for lights, fans, radios, domestic heatings and other household appliances.	All consumption during the month	40 (inclusive of excise duty of 2.5 ps/unit)

Minimum Charges: Rs. 5/- (Rupees five) per month for the first 500 watts and Rs. 3/- (Rupees three) for every additional 500 watts or part thereof of the connected load.

Note: Combined load for domestic and commercial consumers shall be charged at commercial tariff unless separate meters are provided.

1. b) Tariff-LTD/LIG:

Applicable to consumers of Low Income Group with a connected load 2×40 W. only.	Rs. 5/- (per month) inclusive of excise duty.
--	---

2. Tariff-LTC/Commercial.

	Tariff KWH/month	Ps/Unit (KWH)
Applicable to shops, offices, railway-	All consumption during	60 Ps/Unit (inclusive of

-stations, hotels, restaurants, photographic studios, X-Ray installations, laundries, dry-cleaners, cinemas, theatres, A. I. R. Station and other commercial installations for lights, fans, radios, heating and other appliances.

Minimum Charges: i) For single phase connection: Rs. 10/- (Rupees ten) per month for first 500 W and Rs. 5/- for every additional 500 W or part thereof of connected load.

ii) For three phase connection: Rs. 60/- (Rupees sixty) per month for first 3 KW and Rs. 10/- for every additional 1 KW or part thereof.

3. Tariff-LTP/Motive Power.

	Tariff KWH/Month	Ps/Unit (KWH)
Applicable to consumers for general motive power service where connected load is not more than 100 KVA	All consumption during the month.	35 (inclusive of excise duty of 2.5 ps/unit).

Minimum Charges: Rs. 10/- (Rupees ten) per KVA or per HP per month of connected load or part thereof. For seasonal consumer, Rs. 10/- (Rupees ten) per month per KVA or connected load or part thereof or Rs. 120/- (Rupees one hundred twenty) per year per KVA of connected load or part thereof.

Note: 1) Supply under this tariff will be given for a minimum of 3 BHP. If any load less than 3 BHP is required by consumer, minimum bill shall be charged on the basis of load of 3 BHP.

2) The power factor should not in any case fall below 0.85 lagging. If the power factor is lower than 0.85 lagging, the consumer shall install capacitors to bring the power factor to at least 0.85 lagging. In case the power factor is found to be lower than 0.85 lagging, a surcharge at the rate of 2.5% on the monthly bill corresponding to the demand charges and energy charges only shall be levied. In case the power factor is less than 0.7 lagging, the installation is liable to be disconnected. Further, the Electricity Department reserves the right to install a suitable capacitor at its own cost and recover the cost thereof as arrears of energy charges.

4. Tariff S. S. I./Motive Power:

	Tariff KWH/Month	Ps/Unit (KWH)
Applicable to small scale Industrial consumers for general motive power service where connected load is not more than 150 KVA either at L. T. or at H. T.	All consumption during the month	30 (inclusive of excise duty of 2.5 ps/unit)

Minimum Charges: i) LT consumer: Rs. 5/- (Rupees five) per month per KVA of connected load or part thereof of Rs. 60/- (Rupees sixty) per year per KVA of connected load or part thereof.

ii) HT Consumer: Rs. 5/- (Rupees five) per month per KVA of connected load or part thereof/75% of contract demand whichever is higher or for seasonal loads, Rs. 60/- (Rupees sixty) per year per KVA of connected load or part thereof/75% of contract demand whichever is higher.

Note: a) Supply under this tariff will be given for a minimum of 3 BHP. If any load less than 3 BHP is required by the consumer, minimum bill shall be charged on the basis of 3 BHP.

b) The power factor should not in any case fall below 0.85 lagging. If the power factor is lower than 0.85 lagging the consumer shall install capacitors to bring the power factor to atleast, 0.85. In case the power factor is found to be lower than 0.85 lagging, a surcharge at the rate of 2.5% on the monthly bill corresponding to Demand charges and Energy charges only shall be levied. In case the power factor is less than 0.7 lagging, the installation is liable to be disconnected. Further, the Department reserves the right to install a suitable capacitor at its own cost and recover the cost thereof as arrears of energy charges.

c) This Tariff is an optional to Tariff-LTP/Motive Power and Tariff HTI/Industrial and is available to all the small scale industries registered with the Directorate of Industries, Panaji. This optional tariff shall be effective from the date of production of the valid certificate from the Directorate of Industries to the Electricity Department and this option shall be available to the Small Scale Industries till such time as the Directorate of Industries certifies them to be Small Scale Industries.

d) All factory lighting consumption shall be charged at 60 Ps/Unit (inclusive of Excise duty).

5. Tariff-LTPL/Poultry.

	Tariff KWH/Month	Ps/Unit (KWH)
Applicable to Poultry	All consumption during the month.	30 (inclusive of excise duty of 2.5 Ps/Unit).

Minimum Charges: Rs. 5/- (Rupees five) per month per KW of connected load or part thereof.

Note: This rate of tariff is made available only to those consumers who produce a certificate from the Director of Animal Husbandry, Govt. of Goa, Daman and Diu, to the effect that the consumer carries on the Poultry Farming on regular basis.

6. Tariff-LTAG/Agricultural.

	Tariff KWH/Month	Ps/Unit (KWH)
Applicable to irrigation pumping and agricultural purpose.	All consumption during the month.	22

Minimum Charges: Rs. 36/- (Rupees thirty six) per year per H. P. of connected load or part thereof subject to a minimum of 2 H. P.

Note: i) Bonafide lighting of the pump house upto 5% of the motive power consumption is permitted under this category and excess consumption chargeable at 40 paise per unit.

(ii) The Power factor should not in any case fall below 0.85 lagging. If the power factor is lower than 0.85 lagging the consumer shall install capacitors to bring the power factor to atleast 0.85. In case the power factor is found to be lower than 0.85 lagging, a surcharge at the rate of 2.5% on the monthly bill corresponding to Demand charges and energy charges only shall be levied. In case the power factor is less than 0.7 lagging, the installation is liable to be disconnected. Further, the Electricity Department reserves the right to install a suitable capacitor at its own cost and recover the cost thereof as arrears of energy charges.

7. Tariff-LTPL/Public lighting:

	Tariff KWH/Month	Ps/Unit (KWH)
Applicable to public lighting system including signal system, and park lighting belonging to local authorities such as Municipalities/Panchayats etc. This is also applicable to Public lighting of Government/semi-Government establishments, but shall not be applicable in case of private establishments.	All consumption during the month.	40 (inclusive of excise duty of 2.5 Ps/Unit).

Minimum Charges: The minimum charges per month shall be Rs. 45/- (Rupees forty five) per KW of connected load. The connected load for the purpose of billing shall be the average of the connected load on the first day and last day of the month in question.

Note: Standard public lighting fixtures without lamps shall be provided and maintained by the Electricity Department. Special lighting fixtures, filament lamps, fluorescent tubes and other fitting shall be supplied by the concerned Municipality/Panchayat which shall also bear the cost of maintenance, handling of filament, mercury vapour, fluorescent or any other lamps of different wattages at the rate of Re. 1/- per month per fixture/lamp. In the case of private colonies, the street lighting fixtures etc., will have to be provided as well as maintained by them.

B. High Tension Supply.

8. Tariff-HTM/Mixed.

Applicable to bulk supply of power at 11 KV and above for a connected load of more than 100 KVA for consumers such as railways, M. E. S., educational institutions, non-industrial establishments etc. having a mixed load with predominantly lighting or non-industrial load of more than 50% of the connected load.

Demand charges	Plus	Energy Charges
(a) Billing demand Rs. 22/- per KVA per month.		35 Paise per KWH (inclusive of excise duty of 2.5 Ps/Unit) All consumption during the month.
(b) For billing demand in excess of contract demand Rs. 44/- per KVA per month.		

Note:— The power factor shall not in any case fall below 0.85 lagging. In case the power factor is found to be lower than 0.85 lagging, a surcharge at the rate of 0.5% on the monthly bill corresponding to Demand charges and energy consumed only shall be levied for every 0.01 by which the power factor falls below 0.85 lagging. In case the power factor is less than 0.7 lagging the installation is liable for disconnection. Further, the Electricity Department reserves the right to install capacitors to improve the power factor and recover the cost incurred thereon as arrears of energy charges.

5. *Tariff-HTI/Industrial.*

Applicable to supply of power at 11 KV and above for contract demand above 100 KVA for industries, factories, water and sewage pumping and other purposes as may be decided by the Chief Electrical Engineer.

Demand charges	Plus	Energy Charges
(a) For billing demand upto contract demand Rs. 22/- per KVA per month.		35 Paise/KWH inclusive of Excise duty of 2.5 paise/KWH on all consumption during the month.
(b) For billing demand in excess of contract demand Rs. 44/- per KVA per month.		

(i) For agricultural consumers, Lift Irrigation schemes, agricultural farms and seasonal consumers etc., availing H. T. supply, the minimum charges shall be based on Annual Minimum charges. For this category of consumers, the Annual Minimum charges payable in any calendar year shall be 12 months charges based, on 75% of the contract Demand.

Excise Duty:— The agricultural and lift irrigation schemes are exempted from the purview of Excise duty. Hence the energy charges shall be leviable after excluding the excise duty.

Note: (a) Lighting upto 10% of the monthly energy consumption is allowed under HTI Tariff, for bonafide factory lighting purposes. Excess is chargeable at 60 paise per KWH.

(b) For staff quarter, rest/guest houses, street lighting in the colony situated separately from the main factory and when distribution lines, service lines, meters, etc., are permitted to be owned and maintained by H. T. consumers, all energy consumed shall be charged at 40 paise per KWH.

(c) The Power Factor shall not in any case fall below 0.85 lagging. In case the power factor is found to be lower than 0.85 lagging, a surcharge at the rate of 0.5% on the monthly bill corresponding to demand charges and energy charges only shall be levied for every 0.01 by which the power factor falls below 0.85 lagging. In case the power factor is less

than 0.7 lagging, the installation is liable for disconnection. Further, the Electricity Department reserves the right to install capacitors to improve the power factor and recover the cost incurred thereon as arrears of energy charges.

(d) In the case of Agricultural consumers, Lift Irrigation Schemes, agricultural farms and seasonal consumers etc., availing H. T. supply, if the power charges paid during any calendar year fall short of the Annual Line Minimum or 12 months' Demand charges based on 75% of the Contract Demand, whichever is higher, the difference should be paid by the consumer during the month of January of the succeeding calendar year.

By order and in the name of the Lieutenant Governor of Goa, Daman and Diu.

K. B. Shukla, Secretary (Industries and Labour).

Panaji, 20th May, 1982.

Notification

2-194-78-ILD

In exercise of the powers conferred by section 23, read with section 51-A of the Indian Electricity Act, 1910 (Central Act 9 of 1910), and in supersession of all the existing Notifications, the Lieutenant Governor of Goa, Daman and Diu hereby frames the following Electricity Supply Tariffs for the Daman & Diu district of the Union Territory of Goa, Daman and Diu as specified in the schedule appended to this notification.

SCHEDULE

I. GENERAL CONDITIONS

- These tariffs shall be subject to revision by the Government from time to time.
- These tariffs shall be subject to the terms and conditions for power supply approved from time to time by the Government.
- Supply of power in all cases shall be subject to the execution of agreement by consumers.
- As a general rule, no low voltage service will be given where the connected load is 100 KVA and above. Exceptions may be made in special cases at the discretion of the Chief Electrical Engineer.
- Supply to consumers having a connected load between 100 KVA to 1000 KVA will be generally at 11 KV, and for more than 1000 KVA at 33 KV. Exceptions may be made in special cases at the discretion of the Chief Electrical Engineer. A rebate of 1% of the monthly bill corresponding to demand charge and energy charge only shall be given to H. T. consumers availing power supply at a voltage of 110 KV and above. However, the voltage of supply shall be at the discretion of the Chief Electrical Engineer.
- If energy supplied for a specific purpose under a particular Tariff is used for a different purpose not contemplated in the contract for supply and/or

for which higher tariff is applicable, it will be deemed as misuse and stealing of energy within the meaning of the Indian Electricity Act, 1910. In such a case, the energy consumption bills already rendered for the service shall be revised by applying the appropriate higher tariff from the date of connection unless convincing reasons are adduced thereof for adopting a different period. The imposition of this higher tariff shall not relieve the consumer from any penalties as per the Law.

7. Surcharge of one per cent compound per month or part thereof shall be levied on all delayed payment, of bills. Such surcharges shall be rounded off to the nearest multiple of 5 Ps. Amount less than 3 Paise will be neglected and amount of 3 paise or more shall be rounded off to the next multiple of 5 paise.

8. If the consumers fail to pay the energy bill presented to them within the stipulated period, the Electricity Department shall have the right to disconnect the supply after serving a seven days clear notice on such consumers.

9. Consumers requiring supply for loads not covered by these tariffs and also electro-chemical and electrometallurgical industries, may negotiate for special tariff with the Electricity Department.

10. In case of doubts or anomalies in respect of categorisation of any consumer or in any other respect, the decision of the Chief Electrical Engineer shall be final.

II. DEFINITIONS

1. Connected load means the sum of rated capacities of all the energy consuming devices which can be operated simultaneously. This will be expressed in KW/KVA. One H. P. will be considered equivalent to one KVA for equipment rated in H. P.

2. Seasonal consumers mean all consumers who work only during a part of the year upto a maximum of nine months, such as cotton, corning, pressing factories. It shall also include ice factories, oil mills, which may work throughout the year but intermittently and any other consumers which may be approved by the Electricity Department from time to time as seasonal consumers.

3. Maximum Demand means the average KVA supplied during the 30 minutes period (or any other shorter period as may be prescribed by the Electricity Department) of maximum use in a month.

4. Contract demand means the maximum KVA for which the Electricity Department has undertaken to provide facilities from time to time.

5. Billing Demand means either:—

- (i) the actual maximum demand during the month; or
- (ii) 75% of the contract demand; or
- (iii) actual maximum demand during the previous 11 (Eleven) months or
- (iv) 50 KVA whichever is higher, however if the actual maximum demand is found to be exceeding the contracted demand the increase in the billing demand beyond the contracted demand shall be charged at double the normal rate.

6. Billing Demand for Agricultural consumers, Lift Irrigation Schemes, agricultural farms and seasonal consumers etc. availing H. T. supply shall be the actual Maximum demand during the month.

A. Low Tension Supply:

1.(a) Tariff-LTD/Domestic and Non-Commercial:

	Tariff KWH/month	Ps./Unit (KWH)
Applicable to private houses, bungalows, clubs, hostels and hospitals run on non-commercial lines charitable, educational and religious institutions, etc. for lights, fans, radios, domestic heatings and other household appliances.	All consumption during the month.	60 (inclusive of excise duty of 3.15 Ps./Unit.

Minimum Charges: Rs. 5/- (Rupees five) per month for the first 500 watts and Rs. 3/- (Rupees three) for every additional 500 watts or part thereof of the connected load.

Note:— Combined load for domestic and commercial consumers shall be charged at commercial tariff unless separate meters are provided.

1. (b) Tariff-LTD/LIG:

Applicable to consumers of Low Income Groups with a connected load 2× 40 W only	Rs. 5/- inclusive of excise duty.
---	-----------------------------------

2. Tariff-LTC/Commercial:

	Tariff KWH/Month	Ps./Unit (KWH)
Applicable to shops, Offices, railway stations, hotels, restaurants, photographic studios, X-ray installations, laundries, dry-cleaners, cinemas, theatres, All India Radio Station and other commercial installations for lights, fans, radios, heating and other appliances.	All consumption during the month	70 inclusive of excise duty of 3.15 Ps./Unit

Minimum Charges: (i) For single phase connections: Rs. 10/- (rupees ten) per month for first 500 W and Rs. 5/- for every additional 500 W.

(ii) For three phase connection: Rs. 60/- (Rupees sixty) per month for first 3 KW and Rs. 10/- (Rupees ten) for every additional 1 KW load or part thereof connected load.

3. *Tariff-LTP/Motive Power:*

	Tariff KWH/Month	Ps./Unit (KWH)
Applicable to consumers for general motive power service where connected load is not more than 100 KVA.	All consumption during the month	45 inclusive of excise duty of 3.15 Ps./Unit.

Minimum Charges: Rs. 15/- (Rupees fifteen) per month/KVA of connected load or part thereof. For seasonal consumers Rs. 15/- (Rupees fifteen) per month per KVA of connected load or part thereof or Rs. 180/- (Rupees one hundred eighty) per year per KVA of connected load or part thereof.

Note: — 1) Supply under this Tariff will be given for a minimum of 3 BHP. If any load less than 3 BHP is required by consumers, minimum bill shall be charged on the basis of load of 3 BHP.

2) The power factor should not in any case fall below 0.85 lagging. If the power factor is lower, than 0.85 lagging, the consumer, shall install capacitors to bring the power factor to at least 0.85 lagging. In case the power factor is found to be lower than 0.85 lagging, a surcharge at the rate of 2.5% on the monthly bill corresponding to the demand charges and energy charges only shall be levied. In case the power factor is less than 0.7 lagging, the installation is liable to be disconnected. Further, the Department reserves the right to install a suitable capacitor at its own cost and recover the cost thereof as arrears of energy charges.

4. *Tariff S.S.I./Motive Power:*

	Tariff KWH/Month	Ps./Unit (KWH)
Applicable to small scale industrial consumers for general motive power service where connected load is not more than 150 KVA either at L.T. or at H.T.	All consumption during the month.	35 inclusive of excise duty of 3.15 Ps./Unit.

Minimum Charges: (i) Rs. 10/- (Rupees ten) per month per KVA of connected load or part thereof or Rs. 120/- (Rupees one hundred twenty) per year, per KVA of connected load or part thereof.

HT Consumers: (ii) Rs. 10/- (Rupees ten) per month per KVA of connected load or part thereof or 75% of contract demand whichever is higher or for seasonal loads, Rs. 120/- (Rupees one hundred twenty) per year, per KVA of connected load or part thereof/75% of contract demand whichever is higher.

Note: (a) Supply under this tariff will be given for a minimum of 3 BHP. If any load less than 3 BHP is required by the consumer, minimum bill shall be charged on the basis of 3 BHP.

(b) The power factor should not in any case fall below 0.85 lagging. If the power factor is lower than 0.85 lagging the consumer shall install capacitors to

bring the power factor to at least 0.85. In case the power factor is found to be lower than 0.85 lagging, surcharge at the rate of 2.5% on the monthly bill corresponding to Demand charges and Energy charges only shall be levied. In case the power factor is less than 0.7 lagging, the installation is liable to be disconnected. Further, the Department reserves the right to install a suitable capacitor at its own cost, and recover the cost thereof as arrears of energy charges.

(c) This Tariff is an optional tariff to Tariff-LTP/Motive Power and Tariff HT/Industrial and is available to all the Small Scale Industries registered with the Directorate of Industries, Panaji. This optional tariff shall be effective from the date of production of the valid certificate from the Directorate of Industries to the Electricity Department and this option shall be available to the Small Scale Industries till such time as the Directorate of Industries certifies them to be Small Scale Industries.

(d) All factory lighting consumption shall be charged at 70 Ps./Unit inclusive of excise duty.

5. *Tariff-LTPLT/Poultry:*

	Tariff KWH/Month	Ps./Unit (KWH)
Applicable to Poultry	All consumption during the month.	40 inclusive of excise duty of 3.15 Ps./Unit.

Minimum Charges: Rs. 10/- (Rupees ten) per month per KW of connected load or part thereof.

Note: This rate of tariff is made available only to those consumers who produce a certificate from the Director of Animal Husbandry, Government of Goa, Daman and Diu, to the effect that the consumer carried on the Poultry Farming on regular basis.

6. *Tariff-LTAG/Agricultural:*

	Tariff (KWH/Month)	(KWH) Ps./Unit
Applicable to irrigation pumping and agricultural purposes.	All consumption during the month.	25

Minimum Charges: Rs. 45/- (Rupees forty five) per year per H.P. or connected load or part thereof subject to a minimum of 2 H.P.

Note: (i) Bonafide lighting of the pump house upto 5% of the motive power consumption is permitted under this category and excess consumption chargeable at 60 paise per KWH.

(ii) The Power factor should not in any case fall below 0.85 lagging. If the power factor is lower, than the consumer shall install capacitors to the power factor to at least 0.85. In case the power factor is found to be lower than 0.85 lagging, a surcharge at the rate of 2.5% on the monthly bill corresponding to Demand charges and energy charges only shall be levied. In case the power factor is less than 0.7 lagging, the installation is liable to be disconnected.

Further, the Department reserves the right to install a suitable capacitor at its own cost and recover the cost thereof as arrears of energy charges.

7. Tariff-LTPL/Public lighting.

	Tariff KWH/Month	Ps/Unit (KWH)
Applicable to public lighting system including signal system, and park lighting belonging to local authorities such as Municipalities / Panchayats etc. This is also applicable to Public lighting of Government/Semi Government establishment, but shall not be applicable in case of private establishment.	All consumption during the month.	50 inclusive of excise duty of 3.15 Ps/Unit.

Minimum Charges: The minimum charges per month shall be Rs. 60/- (Rupees sixty) per KW of connected load. The connected load for the purpose of billing shall be the average of the connected load on the first day and last day of the month in question.

Note: Standard public lighting fixtures without lamps shall be provided and maintained by the Electricity Department. Special lighting fixtures, filament lamps, fluorescent tubes and other fitting shall be supplied by the concerned Municipality/ Panchayat which shall also bear the cost of purchase, maintenance, handling of filament, mercury vapour, fluorescent or any other lamps of different wattages at the rate of Re. 1/- per month per fixture/lamp. In the case of private residential colonies, the street lighting fixtures etc. will have to be provided as well as maintained by them.

B. High Tension Supply:

8. Tariff-HMT/Mixed:

Applicable to bulk supply of power at 11 KV and above for a connected load of more than 100 KVA for consumers such as railways M.E.S. educational institutions, non-industrial establishments etc. having a mixed load with predominantly lighting or non industrial load of more than 50% of the connected load.

	Demand Charges	Plus	Energy charges
a) For Billing demand upto contract demands Rs. 25/- per KVA per month.			50 Paise per KWH (inclusive of excise duty of 3.15 Ps/Unit).
b) For billing demand in excess of contract demand Rs. 50/- per KVA per month.			

Note: The power factor shall not in any case below 0.85 lagging. In case the power factor is found to be lower than 0.85 lagging, a surcharge at the rate of 0.5% on the monthly bill corresponding to Demand

charges and energy consumed only shall be levied for every 0.01 by which the power factor falls below 0.85 lagging. In case the power factor is less than 0.7 lagging, the installation is liable for disconnection. Further, the Department reserves the right to install capacitors to improve the power factor and recover the cost incurred thereon as arrears of energy charges.

9. Tariff-HTI/Industrial:

Applicable to supply of power at 11 KV and above for contract demand above 100 KVA for industries, factories, water and sewage pumping and other purposes as may be decided by the Chief Electrical Engineer.

	Demand charges	Plus	Energy charges
a) For billing demand upto contract demand Rs. 25/- per KVA per month.			All consumption during the month. 40 paise /KWH (inclusive of excise duty of 3.15 Ps/ Unit).
b) For billing demand in excess of contract demand Rs. 50/- per KVA per month.			

(i) For agricultural consumers, Lift Irrigation schemes, agricultural farms and seasonal consumers etc., availing H. T. supply, the minimum charges shall be based on Annual Minimum charges. For this category of consumers, the Annual Minimum charges payable in any calendar year shall be 12 months charges based on 75% of the contract Demand.

Excise duty: The agricultural and lift irrigation schemes are exempted from the perview of Excise duty. Hence the energy charges shall be leviable after excluding the excise duty.

Note: (a) Lighting upto 10% of the monthly energy consumption is allowed under HTI Tariff, for bonafide factory lighting purpose. Excess is chargeable at 70 paise per KWH.

(b) For staff quarter, rest/guest houses street lighting in the colony situated separately from the main factory and when distribution lines, service lines, meters etc., are permitted to be owned and maintained by H. T. consumers, all energy consumed shall be charged at 60 paise per KWH.

(c) The Power Factor shall not in any case fall below 0.85 lagging. In case the power factor is found to be lower than 0.85 lagging, a surcharge at the rate of 0.5% on the monthly bill corresponding to demand charges and energy charges only shall be levied for 0.01 by which the power factor falls below 0.85 lagging. In case the power factor is less than 0.7 lagging, the installation is liable for disconnection. Further, the Department reserves the right to install capacitors to improve the power factor and recover the cost incurred thereon as arrears of energy charges.

(d) In the case of Agricultural consumers, Lift Irrigation Schemes, Agricultural farms and seasonal consumers etc. availing H. T. supply if the power charges paid during any calendar year fall short of the Annual Line Minimum or 12 months Demand charges based on 75% of Contract Demand, which-

ever, is higher, the difference should be paid by the consumer during the month of January of the succeeding calendar year.
